

## PROHIBITION ENFORCEMENT BILL VETOED BY PRESIDENT

## HOUSE QUICKLY REPASSES MEASURE OVER HIS HEAD

## Unexpected Action of Wilson Shocks Washington Officials — Senate Expects to Take Action on Bill Today—Executive Issues Statement on Why He Vetoes Measure

WASHINGTON, Oct. 27.—President Wilson unexpectedly vetoed the prohibition enforcement bill today and within three hours the house had repassed it over his veto by a vote of 176 to 55. The total vote was barely more than a majority of the entire membership.

Dry leaders in the senate immediately began laying plans to repass the bill there. They expect to ask unanimous consent for its consideration tomorrow, claiming enough votes to put it thru.

They expect to act on it by Wednesday at the latest.

## Capital Gives Royal Belgian Party Welcome

WASHINGTON, Oct. 27.—King Albert, Queen Elizabeth and Prince Leopold of Belgium arrived in Washington shortly before 9 o'clock today.

clock thought for a moment that they were with officials of the national capital. The royal party received a most enthusiastic welcome at the station where it was met by Vice - President Marshall and other high government officials. Generals Pershing and March were among those who joined in the welcome. Thousands crowded every available space thru which the royal party had to pass. After the king and his party were formally presented to welcoming officials including all members of the cabinets they reviewed a pageant arranged for them in which school children and war workers in costume waving

ings and singing participated.

The royal party then were driven up Pennsylvania Avenue which was thronged for its entire distance to the home of Breckinridge Long, Assistant Secretary of State, where they will stay while in the capital.

**LITTLE PROGRESS MADE IN AIR RACE**

CHICAGO, Oct. 27.—With adverse weather conditions prevailing on the route of the armless trans-continent air race, only three of the six stragglers in the return flight were able to make a

ded a veto message and sent it along to congress without worrying apparently about what congress might do.

With re-passage of the law by the house and the prospect of the same thing happening in the senate hope of the big "wet spell" that would run over the Christmas season vanished into thin air.

Prohibition leaders predicted tonight that the refusal of the house to accept the president's veto would mean that the sale of liquor would not be permitted again in the life of this and many other generations.

research and in the development of fuel, dye and other lawful industries.

The subject matter treated in these measures, deals with two distinct phases of the prohibition legislation. One part of the act under consideration seeks to enforce war time prohibition. The other provides for the enforcement which was made necessary by the adoption of the constitutional amendment. I object to and cannot approve that part of this legislation with reference to war-time prohibition.

It has to do with the enforce-

## ALARMING FIGURES.

The Tribune used to keep tabulations to show the deaths caused by Fourth of July carelessness and by accidental gun discharges when men were out hunting. Now its attention is focused on automobile accidents, and its record shows 342 deaths in 1919 from auto accidents in Chicago. There certainly is a challenge in these figures to bring stricter laws or stricter observance of those already on the statute books.

## NO HELP FROM SACCHARIN.

There have been some suggestions that housewives might well use saccharin in place of sugar in many lines of cooking. Now comes the bureau of chemistry of the U. S. department of agriculture, and issues a warning that saccharin is a dangerous

drug and condemns its use for cooking. Moreover, it is proposed to prosecute those who advertise saccharin as a substitute.

## WILL SEEK TO SERVE

George A. Wheeler is the Republican candidate for county commissioner. Mr. Wheeler has not at any time held public office, altho he has been a resident in this county all of his life. He is a land owner and a successful farmer. He has aspirations to serve as a member of the county board and makes promise to the public that if elected he will devote his time and thought unreservedly to the duties with the end in view of giving to Morgan county an efficient and economical administration of its affairs.

## WHERE THE MONEY GOES.

It will be interesting to note what bid the government is able to secure privately for the great power factory built at Nitro, West Va. The property was acquired at a cost of \$60,000,000 and the highest bid was less than \$6,000,000. Congressman Graham of Illinois suggests that all bids be rejected and that an effort be made to sell the property privately. Figuring the great loss on this enterprise and remembering that this was only one of many in which the government engaged in war time, it is easy to understand why taxes are high.

## MR. SHEA WARNS THE GOVERNMENT.

Timothy Shea, who is acting president of the Brotherhood of Locomotive Firemen and Engineers, has issued a statement that if the Cummins railroad bill now before congress is made a law that his union will not observe it. Certainly that is a pretty bald and bold statement. Any man who

thinks himself greater than the government is dangerous. This is not a discussion of the proposed bill but certainly any man who proposes to defy the governmental authority is worthy of condemnation. It is safe to say that Mr. Shea in this utterance does not represent the great majority of the men in the union of which he is an officer.

## GOV. LOWDEN DOESN'T SIDE STEP.

Gov. Lowden may be a candidate for the highest office in the land but that fact doesn't in any way tend to make him timid about expressing opinions for fear of offending this class or that group.

When asked as to his opinion about President Wilson's threat to punish union leaders if a general coal strike is called Nov. 1, Governor Lowden said: "The threatened coal strike is a strike against the American public. When ever any organization, whether of capital or labor, becomes so powerful as to be able to give or withhold from the public the necessities of life, such organization must come under the control of the government. Otherwise the part becomes greater than the whole. A general strike would mean in effect an effort to substitute soviet for the duly constituted authority of the land. The people are not yet ready to abandon their form of government. Illinois will co-operate with the president to the extent of its power to the end that its people shall not suffer."

## REPUBLICAN DOCTRINE

We have pointed out that the great leaders of the Republican party have always maintained the cause of Americanism. The stand taken by the party today is in accordance with its position in the past. It is not an accident that the Republican party has been called upon to put American interests in the foreground.

One of the clearest statements of this principle was made by President McKinley in his first inaugural, when he said: "It has been the policy of the United States, since the foundation of the government, to cultivate relations of peace and amity with all the nations of the world, and that accords with my conception now. We have cherished the policy of non-interference with the affairs of foreign governments, wisely inaugurated by Washington, keeping ourselves free from entanglement, either as allies or foes content to leave undisturbed with them the settlement of their own concerns. It will be our aim to pursue a firm, dignified foreign policy, which shall be just, impartial, ever watchful of our national honor, and always insisting upon the

lawful rights of American citizens everywhere. Our diplomacy should seek nothing more and accept nothing less than is due us."—Dubuque Times-Journal.

## THE IMPORTANCE OF THE CONSTITUTIONAL CONVENTION

One week from today at the regular fall election the people will select delegates to the constitutional convention which is to meet in January. Clinton L. Conkling, one of the Republican nominees, is a lawyer of wide experience and high standing. His associate, James H. Paddock, is also a man familiar with the affairs of the state and a citizen of good repute. It is likely that few people at this time realize the importance of the work which is to come before the constitutional convention. Illinois has grown in a remarkable degree since its present constitution was adopted and naturally with the passage of years conditions have changed and in many particulars the constitution does not fit as it did when drawn.

Various influences not with an eye single to the public good will be at work seeking to have certain provisions included in the constitution as submitted to the people. The convention should be composed of men of wide knowledge with wisdom and vision, men who can be counted upon to think first of all of the interests of the whole people. The two Republican candidates named are men of that type.

## AGAINST THE PUBLIC POLICY QUESTIONS

A group of Illinois newspapermen which has spent some time in investigating the merits of the three special questions of public policy which will be on the ballot at the coming election, believe that none of these questions are in the interests of the public. Thru these three it is the purpose of the interests behind them to instruct the constitutional convention to submit these same questions to the people as part of a tentative constitution. There is no more reason why the constitutional convention should have instruction on these special questions than on other matters of general public importance.

One of the three questions submitted is with reference to the initiative and referendum and proposes that any proposed repeal of law shall be submitted merely by securing 100,000 signatures. In this state it would be easy to secure this number of signatures in Chicago alone, and often questions submitted to the people are decided by very small minorities. Other states where are initiative and referendum provisions on the statute books provide for a much larger number of signatures. At any rate, the voters of the county should come to a thorough understanding of the import of these questions before expressing an opinion in a favorable way.

## THE GREATEST MOTHER TO AGAIN CALL THE ROLL

The Greatest Mother in the World will soon again call the roll of her followers and supporters. When the roll call is ended on the anniversary of the day the guns ceased firing—she hopes to have the name of every man and woman who cares the least little bit that somebody else is in trouble or sick or hungry and needs a helping hand. Your name authorizes her to extend that hand—which the war proved so strong and competent and warm—to any one who may indeed need it, in your town and in mine, and in all the other towns in America.

It will not be mistaken support your giving your name to the Red Cross, for the tide of discouragement and sickness and want is running high, even here where you may think that every man has all he needs. That never was true of any land or time, and today the Red Cross finds more need than it can possibly do unless the American people stand loyally by and finance the work. There are some obligations still to be met in Europe, particularly in little, brave, but helpless Serbia, but the Red Cross is now looking mostly to the future and the needs that must be met at home. The thought that the Red Cross exists only for emergency relief in war and disaster must be superseded now by that other one that conceived her as a great mother.

To a mother a sick child is as dear as one wounded in battle; wounds, we hope are past and done with, but sickness there will always be. The Greatest Mother wants to be able to go to every ailing child that needs her, tell-

ing the doctor and the milkman to go, too. She wants to be able to go to the hard-pressed mother easing her burden a little. She wants to be able to go to motherless little ones, offering homes and care, and to the husband and father, offering the comfort that a helping hand brings. She wants to be able to go to the young man or woman contracting tuberculosis and say: "Son, Daughter, this is no place for you. Come out into the sunlight." She wants to be able to do for mankind. In your name, all the things a mother does for her children, does lovingly and unselfishly. If you will authorize her to do this, answer to your name some time between November 2nd and 11th. If the name is on a thank-offering and good-will check it will be so much better. (Reprinted from Good Housekeeping.)

## Rippling Rhymes By Walt Mason

Charity.  
With charity for all I walk the village street; I see a duffer fall, and lift him to his feet. I dry the widow's tears, and still the orphan's sighs; and when a bum appears, I feed him pumpkin pies. With charity on file, my failings do not count; my soul may harbor guile in fabulous amount; but charity's a cloak that covers all my sins, and so thru town I poke, and meet with friendly grins. With charity for all I go my modest way, and strive not to recall ill tales of yesterday; the rumors foul and dire that smirch a fellow's name, and drag thru muck and mire some once unspotted fame. I struggle to forget the libels doubly base which make the victim sweat in anguish and disgrace. With charity I greet the fellows who have failed, and all whose futile feet have to demitition trailed. I'm not so snowy white that I can sit on high, and hand out words that blight, to any erring guy. If charity is mine, I may have countless faults, but my white soul will shine, when thru the Gates I waltz.

AN INTERESTED READER  
W. T. Price of Virginia was one of the arrivals in the city yesterday. He was much interested in the account of the dedication of the Illinois monuments at Vicksburg as he was a member of the 114th Illinois Infantry which had a good part in that memorable engagement. In addition to his brave services he also saw several months of rebel prison hell and yet is able to tell the tale, and, in fact, is quite spry and able to get about with almost any young man.

Several years ago he and his estimable wife, formerly Miss Jenny Marshall of this city, leased their fine farm and moved to Virginia where they have a beautiful home with all modern up-to-date conveniences and are well prepared to enjoy the good things of life which they so well deserve.

## SIDEWALKS TIMELY CITY COUNCIL THEME

Rainy Weather Emphasizes Bad Conditions—Ald. Graff is Mayor Pro Tem.

Last night's session of the city council was very brief but the more subject for discussion—sidewalks—was very timely. The continuous downpour of rain has shown up every bad bit of sidewalk in Jacksonville and has accentuated the need of both new sidewalks and repairs.

The roll call by City Clerk showed present Aldermen Cain, Flynn, McGinnis, Graff and Williamson. On motion of Alderman McGinnis the council selected Alderman Graff to serve as mayor pro tem and he presided thru the session. After the reading of the minutes every alderman present had some specific walk to mention where quick relief is necessary. It is realized that the season is getting late and that it is almost impossible for contractors to secure cement so that it is not likely that much more concrete work will be done this fall. Alderman Flynn was of the opinion that city teams should be used for placing cinders along walks which are now practically impassable, especially on streets used by children on their way to school. There was general concurrence in this program as a means of temporary relief.

Alderman Flynn reported that the cleaning of all catch basins was in progress and that it is costing about \$3.50 per basin. This work is very necessary as a matter of health and in order to keep the city's sewerage system in fair condition.

Alderman McGinnis reported that this committee had made careful examination of the city building and that some work must be done on the roof and walls merely to preserve the building from damage. The committee was continued with authority to make the repairs. There was some discussion of general subjects in which the aldermen and mayor pro tem all took part, and the council adjourned at 8:20 o'clock.

## GOOD ATTENDANCE AT SUNDAY SCHOOLS

Sunday there was a fine attendance at all the Sunday schools in the city as a result of the special effort in the way of promoting such a wise course. Advertising does pay in religious as well as in secular matters and a reasonable amount of judicious publicity in all such matters is good. Now do not let those who went for the first time Sunday morning, or who had not been attending regularly, think their duty is done. The church and Sunday school are simply the most important enterprises in the world and the person who fails to do what he can for both is falling short of plain duty.

LOTS OF RAIN  
A copious rain fell Sunday. Sunday night and yesterday and the earth is pretty well soaked. The tunnel in the new dam has been closed and a great deal of water will be arrested in the reservoir. Of course it will be a long time before it reaches the spillway and a great deal of work will have to be done grading the Vandavia road before the new water works will be in full operation. At any rate though it is about safe to consider the water question again solved and some of these days it will be solved for keeps.

## MEETING TONIGHT COURT HOUSE, AT 7:30

Of great human interest. Ladies particularly invited. Rev. W. H. Marbach, Rev. T. H. Tull and Hon. J. J. Reeve, to speak in interest of Jewish Relief Campaign. No solicitation.

## CONDON SPEAKS ON JEWISH RELIEF

Springfield Man Made Eloquent Plea at Court House Sunday—Rev. J. F. Langton Presided

In spite of the bad weather Sunday afternoon a goodly audience gathered at the courthouse in the interest of the Jewish Relief campaign. Henry Frisch, county chairman, introduced Rev. J. F. Langton, rector of Trinity church, who presided in his usual capable manner.

On taking the chair Rev. J. F. Langton said in brief:

"Thru the courtesy of county chairman, Mr. Frisch, I am invited to preside and it gives me real pleasure to do so. We are here in response to the call of Mr. Frisch and of the governor of the state. Our Governor has said:

"In the great war just closed, our Jewish citizens have taken a conspicuous part. They have given their lives on the battlefield. They have been among the most devoted workers in our homes. Not Jew alone, but Jew and Gentile alike have been the beneficiaries of their immense contribution to winning the war. They have measured up to their duty in the war for humanity. Now let humanity do its part in helping the relieve the perishing brethren in the east."

## Respond to Law of Love.

"But we are here in response to a higher law, the law of love that we have so long disregarded in our relations with our Jewish brethren. For eighteen years I was a trusted employee of Mannheimer Brothers and I say from actual knowledge that no people in the world are more prompt to recognize and reward faithful service, to care for their sick and dependents no matter whether Jew or Gentile than our Jewish brethren. And they have stood loyally for American institutions too."

"My father used to tell me a story of the Civil War. When the Monitor was to be built President Lincoln could not get the money to pay for it and he went to Wall Street, New York, and a Jewish banker, Joseph Sligman, let him have the money and the Monitor was a deciding factor in deciding the war."

## Owe Debt to Jewish Race.

"The Jews of the foreign lands must not be left to perish. I have traveled thru lands where the people are dying of hunger. I appeal to all to begin paying a debt we owe the Jewish race. For twenty centuries we have been false to the teachings of Christ; we have scourged, persecuted and isolated the people of His race and let us repent and let this meeting be one of the evidences of our repentance."

Attorney Thomas J. Condon of Springfield was the principal speaker and made a glowing address setting forth the woes and wants of the suffering, persecuted Jews of the faraway lands. He told in eloquent terms of the shameful persecutions of the unspeakable Turk and said that six million Jews were suffering the pangs of nakedness and starvation while four years ago they were prosperous.

## God's Children Entitled to Aid.

"The matter of difference in faith should have no weight in this campaign for all God's children are entitled to the aid which God's followers may provide. In this noble campaign all people, regardless of belief, are wisely interested and the feeling generally seems to be of the best. We who are enjoying the best the earth affords can well be called on to divide a small portion of our wealth with the needy children

## Diphtheria

A sore throat is a good breeding place for Diphtheria germs. Protect your children by never neglecting a Sore Throat. You can wisely depend upon TONSILINE. Give Tonsiline upon the first appearance of Sore Throat—don't give Diphtheria a chance in that throat in its weakened condition. When TONSILINE is swallowed it comes directly in contact with the diseased surface and induces a healthy condition of the membranes—then the system can better defend the throat against Diphtheria germs. Keep TONSILINE in the house always. 25c., 60c. and \$1.00.

Elly Bridge Company Entertain Customers at Their New Home on Case Avenue.

The Elly Bridge Company had the pleasure of a visit from one of their prominent customers, Mr. J. T. McClellan of Kansas City, Mo., on Monday, October 20th. Mr. McClellan brought with him his entire family, consisting of his wife, his son and wife, his daughter and her husband, (Mr. and Mrs. G. H. Kier). The McClellan family own an entire company of amusement attractions, having bought a BIG ELI WHEEL several years ago. Mr. McClellan is a very close friend of the management of the Elly Company, and makes them a visit each year, after his amusement season closes.

On Friday afternoon, October 24th, Mr. B. Kaplan, arrived in the city and before leaving placed his order for a 1920 Model BIG ELI WHEEL. Mr. Kaplan, who is connected with a traveling Amusement Company, now playing the State of Georgia, traveled from Douglas, Ga., to Jacksonville.

ville, to pay the Eli people a visit, and place his order for the BIG ELI WHEEL. He expressed his surprise at the size of the new factory building, and was very much pleased with Jacksonville as a trade center, and desirable residence city, remarking to several of our citizens that should he decide to locate at sometime in the future, he would be tempted to make Jacksonville his home.

The Elly Bridge Company is looking forward to a splendid year of 1920. Orders are now being booked for early Spring delivery, and the management expect that by early in 1920 enough orders will be on file to keep a large force of men busy during the greater part of next year.

**PROHIBITION ENFORCEMENT BILL IS VETOED**

(Continued from Page One.)

sought at the hands of congress. Where the purposes of particular legislation arising out of war emergency have been satisfied, sound public policy makes clear the reason and necessity for repeal.

It will not be difficult for congress in considering this important matter to separate these two questions and effectively to legislate regarding them, making the proper distinction between temporary causes which arose out of wartime emergencies and those like the constitutional amendment of prohibition which is now part of the fundamental law of the country.

In all matters having to do with the personal habits and customs of large numbers of our people, we must be certain that the established processes of legal change are followed. In no other way can the salutary object be accomplished by great reforms of this character be made satisfactory and permanent.

(Signed.) WOODROW WILSON  
The White House,  
Oct. 27th, 1919.

**Only One Hope.**  
One hope remains for the talked of "wet spell" before prohibition becomes effective by constitutional amendment on January 1. It is that the German peace treaty may be ratified and that the president may declare peace and demobilization of the army and navy.

Some legal experts contend that would automatically annul the war-time prohibition law.

But there is a legal question involved as to whether the ratification of the treaty with Germany alone would accomplish that end. The war-time prohibition act was passed at a time when the United States was at war with both Germany and Austria-Hungary. Hostilities, however, actually had ceased. Some law officers here are inclined to believe that it may not be ended until both treaties are ratified.

Friends of the administration say that they expect to see the war prohibition law lifted by presidential proclamation as soon as the German treaty is ratified.

Word that the enforcement act had failed to meet presidential approval was flashed from the white house a few minutes before four o'clock an hour or more before it was officially laid before the house. Instantly wet and dry forces were summoning their respective cohorts, prepared for any break. But there was no thought in the minds of the leaders that immediate action was contemplated.

Some of the dry leaders suggested that it might be wise to repeal the war-time act as the president suggested last spring so far as it related to light wines and beers, mindful of the protest against suppression of these products. But if this plan was discussed generally in the cloak rooms it apparently did not gain favor for outside the members were gathering for the fight.

**House in Uproar.**  
The house was in an uproar when the president's message was read. Chairman Volstead of the judiciary committee, which framed the bill was given the floor. As custodian of the measure he moved that consideration of the veto be deferred until Thursday.

The wrangle started again when Representative Walsh Republican, Massachusetts, moved to table the Volstead motion. Most of the members did not seem to know what this meant, but it was evident that Mr. Walsh was trying to force an immediate vote.

The hub-bub and the wrangle kept going while Republican leader Mondell, demanding the fight be heard, finally got the floor told how the prohibition bill affected the welfare of all the people, which made it necessary that the house have everybody present when voting time came. His plea was made after Chairman Volstead had asked unanimous consent to withdraw his motion.

There were many motions after but a number of roll calls until the final vote was taken at 7 o'clock.

The galleries were deserted. On the floor a handful of members who had stood up against the dry phalanx edged in a word now and then and tried to appeal for upholding of the veto, but they were unable to make themselves heard above the din.

At the end not more than a score of hands clapped. The house went about its work with considerable alacrity but there was no heart in the feeble cheer that followed announcement of the final vote.

**REVIVAL MEETINGS AT FIRST BAPTIST CHURCH**

The special meetings planned for October 26 to November 9th opened up and auspiciously Sunday morning. Three striking messages were delivered during the day—"The Power of Prayer," "A Willingness to Work," and "The Honor and Dignity of Genuine Service."

The large auditorium was well filled for the morning service. The afternoon and evening services were cut down by the rain. Large audiences are expected during the week.

The Baptist church and constituency are fortunate in securing their able leaders—Rev. George H. Yule as evangelist, and Mrs. Yule as soloist and chorus leader.

Rev. Yule is an attractive and forcible speaker. He is clear in his statements of truth, and every sermon is a well wrought out message of God. Mrs. Yule as soloist and chorus leader at once proved herself popular with the people.

The genial sociability of Evangelist Yule and wife will win their way into the hearts of the Jacksonville people.

Services each night at 7:30. Interesting lectures on "The Second Coming of Christ" will be delivered in the afternoon meetings of Tuesday, Wednesday, Thursday, and Friday at 3 p. m. These lectures have proved both interesting and popular in other fields.

Monday night a strong sermon was given on "The Forward Movement of the Modern Church." The keynote of the message was that while there is a time for prayer there is always definite time for action, and God's message to the church is to go forward.

Cottage prayer meetings Tuesday morning at 10:30 at the homes of Foster A. A. Todd, 311 North Prairie street, and Mrs. Jerry Cox, 213 Caldwell. Subject of the Tuesday night sermon: "The Hobbled Church."

**From Operators' Spokesman.**  
St. Louis, Oct. 27.—Thomas T. Brewster, chairman of the mine operators' scale committee, tonight declared the operators would do anything "within reason" to avert the threatened strike of coal miners Saturday and declared the statement of Acting President John L. Lewis that the miners averaged only \$75 a month during the last year, was misleading.

No attempt will be made to operate the mines if the strike materializes, he said.

Mr. Brewster asserted the average scale paid in the central competitive field was from \$8 to \$12 a day and that the minimum for day laborers was \$5 a day. The demand for coal during the coming six months would give the miners greater earning latitude than they ever have had, he said.

"The operators have at all times been willing to negotiate a new wage scale on its merits, provided the miners would disentangle the subject from ridiculous and impossible demands," Mr. Brewster continued. "The operators offered to resume negotiations as to the new wage scale and to refer all points on which we could not agree to arbitration and upon receiving the president's request we agreed to submit all

## Real Estate, Loans and Insurance

When the League of Nations and the Peace Treaties are settled Business of all kinds will be gliding along more smoothly than they have for several years. Strikes will soon be forgotten. The demand of farm reductions will be greater. The demand for building material greater. The cost of production and of labor is higher; hence the price of farm lands and its property will be higher. Let us supply your wants in these lines as we have lots of farms and its property for sale.

**Farewell Party**  
 to Robert Halsted.  
 Robert Halsted, president of the Loyal Sons' class of Central Christian Church is soon to depart for his home in San Antonio, Texas, so inviting the young ladies of the Faithful Followers' class to join them they repaired to the church entertainment room and proceeded to make Robert feel that he was decidedly esteemed by the members of his class and others also.

A wild and weird number was a trip to Hades which gave ample scope for ingenuity and art in the matter of costumes and accessories giving rise to any amount of fun and merriment.

A royal good time was enjoyed socially and in various ways and a jolly gathering sat down to the refreshments provided.

The program was especially in charge of Harold Hall and Edith Standage.

George Harney is teacher of the young men and Mrs. George Douglas of the young ladies. Mr. and Mrs. Douglas chaperoned the affair.

**Mrs. Shirley Strawn Frye**  
 is Hostess to Class.

Mrs. Shirley Strawn Frye was hostess to the Loyal Woman's class of Central Christian church at her home, 615 South East street Monday evening. The affair was a Halloween masquerade party and some beautiful as well as comical costumes were worn by the guests.

The Strawn home was tastefully decorated in keeping with the spirit of Halloween and refreshments of pumpkin pie, apples and coffee were served.

Mrs. Miley won the prize for the best costume. In the pie contest first prize was awarded to Mrs. Woodward and in the guessing contest Mrs. Charles Moore was awarded first prize.

Clarence Large, Mrs. Todd and Mrs. Mervin Ator assisted Mrs. Frye in entertaining.

The guests were: Mrs. Miley, Elmer Miley, Mrs. Mable Dunavan, George Brown, Mrs. Jennie Moore, Mrs. Mabel Stout, Mrs. Edith Woodward, Mrs. Craig, Mrs. Patchen, Mrs. Ranson, Mrs. Hoffman, Mrs. Spencer, Mrs. Stein, Arthur Large, Mr. Cooper, Ralph Hellenthal, Mrs. Walter Hellenthal, Mrs. Haineline, Mrs. Nell Sibley, Mrs. William Ricks, Mrs. Laura Large, Mrs. Acree, Mrs. Peckham, Mrs. Griggs, Mrs. Swales, Mrs. Cook, Mrs. Clarence Large, Mrs. Todd, Mrs. Mervin Ator.

A social dance was given in Knights of Solubus Hall Monday evening. Despite bad weather conditions fifty-eight couples were present and a long program of dances was enjoyed to excellent music furnished by Labby's Jazz Band.

## AUTOMOBILE ACCIDENT NEAR CHAPIN SUNDAY

Mrs. Richard Northrup of Bluffs Sustains Broken Collar Bone When Car Skids Into Ditch—Mrs. Ed Northrup Also Injured—Six in Ford at Time of Accident.

Another serious automobile accident occurred Sunday night at 8:30 o'clock when the Ford car driven by Walter Northrup of Bluffs skidded on a road near Chapin and turned over in a ditch. Mrs. Richard Northrup sustained a broken collar bone and her left arm is badly bruised. Mrs. Ed Northrup also suffered a badly bruised right arm.

The accident occurred just west of the C. B. & Q. R. R. track on the road near Chapin which passes in front of the Arthur French farm. The highway was extremely muddy and slippery and Mr. Northrup was proceeding west-bound with the utmost caution. The fact that he was traveling at a slow rate of speed probably saved others who were in the car from injury. The car started to skid to the south side of the road and despite all that the driver could do went into the ditch and turned over on its side. The wind shield and top were badly smashed and the fenders bent.

The occupants of the car were: Mr. and Mrs. Richard Northrup and grandchild, Walter Northrup, and Mr. and Mrs. Ed Northrup, all of Bluffs.

Dr. F. M. Roberts of Chapin was called and gave the injured the necessary medical attention.

Yesterday Mr. Northrup secured a team and hauled the car to a garage for repairs.

Last night Mrs. Richard Northrup was still suffering from shock and complained of a great deal of pain in her left arm.

### FRANK KIRK WINS FAME IN WINNIPEG

Local Minstrel Man Makes Big Hit With Harvey's Minstrels in Canadian City.

Frank Kirk, well known local minstrel man of this city, has been making a hit on the Pacific coast with the Harvey minstrels, and has now gone into Canada where he has repeated with success. Mr. Kirk is a brother of Mrs. John W. King, and has frequently appeared before local audiences. The Winnipeg Telegram has the following to say of Kirk's work:

"The audience showed much partiality for Frank Kirk. As he sings himself, he gives a real musical burlesque. You don't have to believe it because he says it; that might not be wise, for he is one of the amazing sextette. You make take the word of the audience. It enjoyed Frank Kirk. His is the spontaneous, gentle kind of stage funny play which wears well and makes the laughs responsive. It is good to listen to after you have dined over well on the pathetic Thanksgiving turkey of these H. C. L. days. Frank is not particular as to the instruments upon which he plays. They are all of a kind to him. A broom handle is good enough for him to fiddle with. His fiddling makes your feet jig. He says himself he has none of the latest new things from tomorrow-evening-on-Broadway. He picks them back from the days when Ham, Shem and Japhet were starring a different kind of a circuit. Frank, that is Mr. Kirk of the Sextette, seemed more than partial to a little something he claimed to have handed down from the fellows who heard it from Ham when Noah was afloat. It has a title all its own. Something as familiar as 'The Deserted Village' is in worked-out mining districts. Frank calls his ditty the 'Little Red Caboose Behind the Train.' As he sings it you see in your mind's eye the trail of smoke behind that old caboose as it comes from the expansive mouth of Frank when he accompanies them upon his inexpensive banjo. He made another hit. For that matter he made a lot of hits. The other one the audience will recall is his imitation of the Great-est and Largest of the World's Circuses—have you ever heard of an ordinary sized circus?—parading down Main street. The elephants are coming in the rear, ponderously lifting their elephantine feet to the bally-hoing of the steam calliope. Frank makes you see those elephants. He does it, as he is careful to explain, with his cold-air envelope.

Gives Piano Recital in Music Hall—Audience Gave Frequent Evidence of Appreciation.

An enthusiastic audience greeted the appearance of Miss Edith Robinson in piano recital at Music hall Monday evening. The program departed from conventional lines and tho not heavy offered great variety in mood and style. Each demand, technical or emotional, was met with adequate equipment.

The opening group of classical numbers was given in fine style, from the majestic sweep of the Sarabande to the delightful piquancy of the Capriccio. The Brahmas Intermezzo, built on the theme of an old French carol, was played with a rare poetic feeling as was also the Valse Triste. In the latter number Miss Robinson rose to real heights of emotional expression. The Country Gardens which closed the program was played with a vigor and abandon which would suggest Grainger himself. The program follows:  
Tambourin ..... Gossec  
Sarabande ..... Rambeau-MacDowell  
Minuet ..... Schobert-Bauer  
Capriccio ..... Schobert-Bauer  
Scherzo E Minor ..... Mendelssohn  
Intermezzo Op. 117, No. 1 ..... Brahms  
Mazurka Op 17, No. 1 ..... Chopin  
Juba Dance ..... Dett  
Lento ..... Scott  
Minstrel ..... Debussy  
Valse Triste ..... Sibelius  
Country Gardens ..... Grainger  
Miss Rena M. Lazelle of the faculty will give a voice recital in Music hall on Thursday evening, Nov. 20th, at 8:15. The public is cordially invited.

### CHILDREN WITNESS MOTHER'S SUICIDE

Woman's Small Children Look on as She Ends Life by Shooting—Act Prompted by Husband's Imprisonment.

Waverly, Oct. 27.—While her two small children looked on, Mrs. Eula Pierson committed suicide at her home here this evening at 5 o'clock by shooting herself in the stomach with a 22 calibre revolver.

The act was accomplished after Miss Olga Morris, a neighbor girl, who was also at the Pierson home tried in vain to wrest the revolver from Mrs. Pierson's hand. The bullet passed thru the stomach and lodged in the back. Dr. Paul Allyn was called and did everything possible but it was of no avail. Mrs. Pierson dying about an hour after firing the shot.

About a year ago Mrs. Pierson's husband is alleged to have been implicated in the theft of some bound dogs in Macoupin county. Several trials were held and at the last one held Saturday Pierson was convicted and sentenced to jail.

It is said that Mrs. Pierson expected him to get released and return home Monday. When he did not appear it is believed she brooded over the matter until finally she decided to end it all by suicide.

Mrs. Pierson had given no intimation of her intention to take her life. About 5 o'clock Miss Olga Morris, a neighbor girl, was at the Pierson home. The Piersons have three children, James aged 5 years, Richard aged 3 years and Albert aged 2 years.

Richard is visiting his aunt in St. Louis and James and Albert were in the room. Without warning Mrs. Pierson picked up the revolver. When Miss Morris realized her intention she grappled with her and struggled to secure the weapon.

She was unable to do so and Mrs. Pierson got away from her and placing the weapon against her stomach pulled the trigger. The bullet passed thru the stomach and lodged in the back.

Miss Morris immediately summoned aid, calling Mrs. Pierson's parents, who live next door and also summoning Dr. Paul Allyn. The physician, however, was unable to do anything and she died about 6 o'clock.

Mrs. Pierson was the daughter of Mr. and Mrs. James Richardson and was 24 years of age. She had always resided in Waverly. Besides her husband and three small children she leaves her parents, one sister, Mrs. Paul Gurneils of St. Louis and two brothers, Ernest of Oklahoma and Noble, residing at home.

The case is peculiarly sad and has cast a gloom over the entire community and the sympathy of all goes out to the little motherless children, who are not old enough to realize the great tragedy that has come into their lives. Coroner Baker of Jacksonville has been notified and will come to Waverly this morning and hold an inquest.

At this time no arrangements have been made for the funeral.

### RED CROSS ROLL CALL BEGINS SATURDAY

Earl Spink Is Named Campaign Manager—Ready Response Thruout County Is Expected.

The Morgan county Red Cross drive for members or more properly speaking the roll call will begin Nov. 2 and run thru Nov. 11, in accordance with the plans of the national and state organizations. The Morgan County Red Cross chapter has appointed Earl M. Spink as chairman of the campaign committee. Mr. Spink begins the preliminary work of organization yesterday and with the assistance and co-operation of Red Cross members thruout the county, expects the campaign to be readily handled.

In the Morgan county chapter with its 11 branches there are more than 8,000 members. The interest in the Red Cross organization of course was at its height during the war time, as people came into knowledge of the great work the Red Cross was doing in the war zone. Since the signing of the armistice the Red Cross has had possibly even greater demands than before. This humanitarian organization which reaches around the world, has had tasks that no other organization could perform. This work has not been by any means limited to European countries, but a vast amount of civilian relief work and among returned soldiers has been carried on.

Aids In Every Crisis:  
Those who are familiar with the organization work here in Morgan County know of numerous cases where the aid of the Red Cross has been necessary in order to keep the immediate relatives of soldiers from want. Red Cross work has much to do not directly connected with war, for in every great emergency, in every great disaster, it responds to the needs.

Men, women and children, no matter what the race, creed or condition, are beneficiaries of the Red Cross when the need comes. The organization is so managed that every dollar paid for membership goes into relief work and is not expended for salaries or for other operations costs. Other facts about the Morgan county campaigns will soon be announced and it is the expectation there will be little difficulty in renewing the great majority of the memberships.

### RAINFALL HELPS LOCAL WATER SUPPLY

Morgan Lake Conditions Now Much Improved—Some Water in New Reservoir.

The rain which fell so dismally for at least thirty hours Sunday and Monday really meant a blessing for Jacksonville. The supply of water at Morgan lake before this rain was at the lowest point this year. Because comparatively few people visit Nichols park now there were not many who realized this fact. The rainfall was no doubt sufficient to refill the lake and some water had been collected in the new dam. Supt. Cobb had the lower valve of the dam shut and the water there late yesterday had collected to more than three feet in depth. However, in view of the fact that the spillway is unfinished and a considerable amount of material is still piled there, L. V. Baldwin, engineer in charge of construction, instructed Mr. Cobb to open the valve. This lowered the water to a depth of from 1-2 to 2 feet. Mr. Baldwin stated that it would be dangerous at this time to have a larger volume of water in the dam because of the unfinished construction work at the dam and further, because it might cause the water to back up in such a way that the Vandalia road would be flooded and construction work stopped there.

While it would be a fine thing to have the new reservoir full of water, it is quite certain that the refilling of Morgan lake will make the conditions far better than they have been for a number of weeks.

## WEDDED IN IMPRESSIVE HOME CEREMONIAL

Miss Mabel Cowdin is bride of Dr. Homer P. Macnamara—Service held Monday Evening at Cowdin home.

The marriage of Miss Mabel Cowdin and Dr. Homer P. Macnamara was solemnized at 8:00 o'clock Monday evening at the home of the bride's parents, Mr. and Mrs. Charles H. Cowdin near Chapin. The service was held by Rev. Charles A. Macnamara, father of the groom. When the music of Lohengrin's Bridal March was heard, with Miss Gertrude Onken at the piano, the wedding party proceeded through an aisle made by Jaque roses and took their places before a beautiful embankment of palms and ferns in the living room of the home with relatives and family friends surrounding the wedding party as interested witnesses. It was indeed a beautiful picture. There was added interest in this important occasion because it was the sixtieth anniversary of the birth of the bride's father, Charles H. Cowdin.

The guests as they assembled for the wedding were received by Mr. and Mrs. Charles H. Cowdin, parents of the bride and Rev. and Mrs. Charles A. Macnamara, parents of the groom. The bride's party included Mrs. Fred P. Cowdin, mother of honor and Miss Amy Onken, bride's maid. They preceded the bride as she appeared with her father, Charles H. Cowdin, and moved from the front stairs to the floral chancel, where they were met by the groom, Dr. Homer P. Macnamara, and his best man, Dr. Fred P. Cowdin.

The bride's gown was of white tulle with a train and was trimmed with real Brussels lace which the bride purchased while in that city. She wore a veil of white tulle and carried a huge sheath of white chrysanthemums tied with white maline.

Mrs. Cowdin very fittingly wore a turquoise blue maceo gown trimmed in silver lace with silver tulle. Her bouquet was of white chrysanthemums tied with blue tulle.

Miss Onken was dressed in pink duvet de laine satin trimmed in embroidery and beads. Her bouquet was also of white chrysanthemums tied with pink tulle.

After the guests had extended congratulations, refreshments were served, the Colonial Inn catering. Assisting were: Mrs. B. Joy, Mrs. G. A. Moore, Miss Ella Hawk, Mrs. W. T. Cowdin. The color scheme carried through the home was pink and green, and was formed by an artistic arrangement of a profusion of Jaque roses and ferns.

The wedding gifts were of a kind to evidence the good will and esteem of relatives and friends.

Mr. Macnamara is the daughter of Mr. and Mrs. Charles H. Cowdin and has been very popular with the young people wherever she has been. After finishing a course at the high school in Jacksonville she was graduated from Northwestern University. She belonged to the Pi Beta Phi sorority, being president of the organization in that school, and is now secretary for the local alumnae branch in Springfield. Very shortly after graduation she became a teacher of mathematics and has filled such a position in both the high schools of Jacksonville and Springfield with especial success. She was always interested in the activities surrounding her home and it is with regret that the people of the community in which she lives give her up for her new home in Springfield, Illinois.

Dr. Macnamara is the son of Rev. and Mrs. Charles A. Macnamara, well known residents of Minneapolis. After graduating from Fargo College, he attended Northwestern University, and also graduating from the Chicago College of Medicine and Surgery. He was a member of Phi Rho Sigma fraternity.

After finishing his course in Chicago Dr. Macnamara came to Springfield for some special work in the hospital at that place, being recommended from that institution for the position of chief surgeon for the Commonwealth Steel Co., at Granite City. After serving two years in that capacity he went into the service of his country as first lieutenant in the medical corps. At the time of the signing of the armistice he was stationed at Fort Riley, Kansas. Returning to Springfield Dr. Macnamara opened offices in the Illinois National Bank building.

It so happens that both Dr. and Mrs. Macnamara have entered into the life of Springfield during recent years in a way to give them wide acquaintance and strong friendships, so that congratulations were especially hearty and sincere.

After a brief wedding journey Dr. and Mrs. Macnamara will be at home to their friends at 219 South Walnut street, Springfield, Illinois, the residence being already furnished for their occupancy.

Among those here for the wedding from a distance were: Rev. and Mrs. Charles A. Macnamara, Minneapolis, Minn.; Dr. and Mrs. Fred P. Cowdin and daughter, Miss Lucy Frances, Mrs. R. D. Berry, Misses Elda Smith, Elberta Smith, Jessie Carman of Springfield, Mr. and Mrs. Frank Porowski, Kansas City, Mo.; Miss Sarah Cowdin, Macomb, Ill.

## Asserts New Discovery Brings Blessed Relief to Rose and Hay Fever Sufferers

Can Make It Yourself At Home At Trifling Expense

In spite of all the doubters and scoffers, a man in Kentucky, who changed his annoying and distressing hay fever into less than a mild cold, claims most emphatically that if taken in time hay fever can be conquered or at least made so harmless that it is not even bothersome.

He gave his discovery to scores of other sufferers with the most remarkable results and has recently been prevailed upon to dispense it through pharmacists to all hay fever sufferers who still have faith that nature has provided an effective remedy for this common yet miserable disease. And best of all this remedy costs almost nothing. Get a one ounce bottle of Mentholized Archie at any drug store, pour the contents into a pint bottle and fill the pint bottle with water that has been boiled.

Then gargle as directed and twice daily snuff or spray each nostril thoroughly.

That's all there is to it; so simple that a lot of people will say that it can't do the work but oftentimes simple natural remedies are the best as you will find after using.

If you will make up a pint and use it for a week or ten days you need not be surprised if your unwelcome yearly visitor fails to appear.

#### LAW RELATING TO INQUESTS EXPLAINED

Health Department Shows That Death Certificates in Many Cases Cannot Issue Properly Without Coroner's Approval.

Many people hold the idea that a coroner's inquest should be held only in cases where question of criminal liability or damages is likely to occur. It is also true that certificates of death permitting burial are quite often issued whereas, under the law, this cannot properly be done without such certificate has been authorized by the coroner.

#### Tells How to Stop a Bad Cough

Surprising results from this famous old home-made syrup. Easily prepared and costs little.

If you have a severe cough or chest cold accompanied with soreness, throat tickle, hoarseness, or difficult breathing, or if your child wakes up during the night with croup and you want quick help, try this reliable old home-made cough remedy. Any druggist can supply you with 3/4 ounce of Pinex. Pour this into a pint bottle and fill the bottle with plain granulated sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. This recipe makes a pint of really remarkable cough remedy. It tastes good, and in spite of its low cost, it can be depended upon to give quick and lasting relief.

You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm stops throat tickle and soothes and heals the irritated membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing. Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds.

There are many worthless imitations of this mixture. To avoid disappointment, ask for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. Guarantee: It gives absolute satisfaction or money promptly refunded. The Pine Co., Ft. Wayne, Ind.

#### Beauty Answers BY MADAME MARÉE

MISS F. K. L. Making the pores smaller has a direct and tremendous result in the elimination of wrinkles. The reason for this is that when the pores become smaller, the texture of the skin becomes finer, and the tissues are thereby braced up. Coarse skins are usually full of wrinkles. As just try this method once and you will realize that you have found a powerful wrinkle secret. Get a two-ounce package of (50-cent worth) of spot from your druggist, and mix this powder with one tablespoonful of glycerine in a half pint of water. Apply this creamy very freely on the face every day, and you will be astonished to find the difference it will make in your appearance of age. It removes the thousands of small wrinkles, crows' feet and even the deep wrinkles. Try it.

"EFFY"—A glorious head-wash. Yes, here it is, and a wonder, too! Just dissolve a teaspoonful of eggol in half a cup of water, and use as a head-wash. You will be surprised at the remarkable cleanliness of your scalp and the glossiness of your hair as a result. For twenty-five cents you can get at the drug store enough eggol to last for many weeks.

MISS M. O. N.—A really wonderful way, and the easiest and quickest way to remove superfluous hairs is to dissolve them. This is done by the use of ening the hairs with sulfo solution which you can get at any drug store for one dollar. This never leaves a scar or a spot, always works whether the hair is very thick or downy, and on the most delicate skin. It is the only safe way, and is exceedingly simple and quick.

Dr. C. St. Clair Drake, director of the department of public health, has written a letter to Coroners on this general subject of legal certificates of death. He points out that the records of inquests are often necessary to establish records with reference to pensions, insurance or other matters pertaining to estates, one of which has just been received by Coroner Charles A. Rose of this county. It reads as follows:

In checking up the certificate files of the Department of Public Health, we find a large number of death certificates from the various counties of the State showing causes of death, which under the law constitute them coroners' cases, but the certificates are filed as in ordinary cases of death, and as legal records for use in proving pension claims collecting insurance, or for any other legal purposes, the certificates are practically worthless.

1. Many of the certificates of death referred to are made on the "medical certificate of death," whereas all coroners' cases require certificates to be made on the authorized "Coroner's certificate of death" which is adapted to showing an inquest. (A copy of the coroner's form of certificate is hereto attached, and a supply will be sent to any coroner on application to the Director of Public Health, Springfield, Illinois.)

2. Many certificates in our files show death was caused by "violence, casualty or undue means," which under the law constitutes each case one for a coroners' inquest, but the certificates are not only made on the "medical" form of certificate, but are signed by a physician, which course does not meet the requirements of the law.—See Section 10, Chapter 31, Hurd's Statute.

3. Many of such certificates are signed by a Deputy Coroner, whereas the "Coroner's Act" provides at Section 27 that all deputy coroners shall perform all official acts "in the name of the coroner"; therefore, to constitute a certificate of death a proper legal record, where a deputy coroner has held an inquest, it is necessary that the Coroner's Name appear first on the certificate, with the Deputy Coroner's Name beneath it as "Deputy" Coroner.

4. Some of the certificates referred to are signed "Acting" Coroner, which title should never be used except where the coroner's office is actually vacant, and the person signing a certificate as "Acting" Coroner is duly appointed to temporarily act as coroner.

5. The coroner has no legal right to delegate a physician to sign a death certificate as "Coroner's Physician" even tho such physician may have acted on the coroner's jury.

6. The coroner has no legal right to delegate the undertaker or any other person to sign his name as coroner to the certificate of death where he has held an inquest, but must sign the certificate with his own hand, and with ink, (not with pencil or type-writer) and the name of the informant at Item 14 on the certificate, and the name of the undertaker, at Item 20 must be also signed with ink, and by their own hand; all other parts of a coroner's certificate of death may be typewritten if desired.

7. A coroner should never give the cause of death in cases where he holds inquests "natural causes" as for Vital Statistics, and legal purposes, such a statement is meaningless.

Coroners should familiarize themselves with the proper method of entry of causes of death on certificates, as given on certificates, as given on Page 4 and 11 to 20 inclusive, in the "Physicians' Pocket Reference To The International List of Causes of Death." (Copy of which is enclosed) giving special attention also to the instructions given on Page 21.

8. In Section 20, Chapter 31, Hurd's Statute, 1916, the law provides for the disposition of any "valuable personal property, money or papers of the deceased by the coroner."

In Section 21 of said Chapter 31, it is provided that the coroner may "cause the body to be decently buried"; but Section 5 of "The Law to Provide for the Registration of All Births, Stillbirths and Deaths, in the State of Illinois" provides as follows:

"That the body of any person whose death has occurred in the State, or which shall have been found therein, shall not be interred or disinterred, deposited in a vault or tomb, cremated or otherwise disposed of, or removed from or into or from place to place in any registration district—unless a permit for burial, removal, or other disposition thereof shall have been properly issued by the local registrar, deputy or sub-registrar of the district in which the death occurred."

It is therefore obvious that on completion of the coroner's inquest, the undertaker or person to whom the body is consigned must procure a burial permit from the local registrar before burial, the same as in all other cases of death.

In order that the undertaker may have a death certificate on which to procure such burial permit, the registration law provides as follows:

Section 9: "That when the body is the subject of an inquest or investigation by the coroner, the personal and statistical particulars required herein, shall be obtained by the coroner at the time of the inquest or investigation, and over the signature and address of the informant."

This throws the responsibility on the Coroner for presenting to the undertaker, the necessary certificate of death on which to

procure the burial permit from the local registrar on conclusion of the inquest.

9. The Coroner is to be fully satisfied in all cases, as to whether or not there is "reason to believe" that death was due to "violence, casualty or any undue means." He may, and should advise with other persons, but must satisfy himself as to whether or not an inquest is necessary.

10. Coroners should keep accurate records in "proper record books," to be supplied, "at the expense of the County"; and care should be taken to see that all evidence introduced at the inquest is accurately entered in such record book. (See Section 18 and 19 of Coroners Act—Hurd's Statute, 1916, Chapter 31.)

Such records are often required for pension, insurance purposes, damages, to fix criminal liability, etc., and should never be neglected.

11. At the inquest, the Coroner should, if possible determine whether the death was accidental, suicidal, or homicidal, and so state on the certificate; "and in all cases of death from industrial accidents should state whether accident occurred on railway, in mine, quarry, in mill, etc."

12. Coroners must state clearly on the certificate the nature of the accident, suicide, or homicide, showing whether by shooting, fall, drowning, poison, etc., and if poison, state what kind.

The Department of Public Health will appreciate special care on the part of coroners to comply with the above instructions.

Very truly yours,  
C. ST. CLAIR DRAKE, M. D.  
Director.

#### Don't Experiment with Catarrh It Often Leads to Serious Trouble

You Will Never Be Cured by Local Treatment with Sprays and Douches

Catarrh is a condition of the blood and can not be cured by local applications of sprays and douches; this has been proven by the thousands who have vainly resorted to this method of treatment.

Catarrh should not be neglected or experimented with. The wrong treatment is valuable time lost, during which the disease is getting a firmer hold upon its victim, and making it more difficult for even the proper treatment to accomplish results.

Though catarrh makes its first appearance in the nostrils, throat and air passages, the disease becomes more and more aggravated and finally reaches down lungs, and everyone feels the alarming condition suits when the lungs are affected. Thus catarrh may be a runner of that most dreaded hopeless of all diseases, consumption.

No local treatment affords permanent relief. Experience taught that S. S. is a remedy which attacks the at its source, the blood, and duces satisfactory results the worst cases. Catarrh is urged to give S. thorough trial. It is sold druggists. You are invited to the Medical Department for expert advice as to treat your own case. #### Poultry Cullings Postponed

The demonstration meetings advertised at the farms of Frank Hembrough and Percy Sooy for Tuesday have been postponed, owing to the muddy roads. These meetings will quite likely be given on Thursday and Friday.

#### Corn Husking

Corn husking has hardly begun in this county. A few huskers from Kentucky and the southern counties of Illinois have inquired for jobs here, but as yet we have not had very many inquired from farmers for help. The farmers here think that 6c per bushel and board is a very good price considering the better yield this season over last, yet they are willing to pay this amount. In all probability they will not have any difficulty in getting help at this figure.

#### Farm Visit Service

The subject of farm visits was discussed at the Chicago conference of county agents. This is a feature of county agency work that most farmers expect. Occasionally one is found who is decidedly disgruntled because the county agent has never been on his farm. In those counties where the membership now numbers 2,000 it is an impossibility for the county agent to visit every farmer during a year, and the county agents realize that it is a difficult matter to do this work and keep everyone satisfied. In the opinion of those who were at the conference it would simplify matters very much if the farmers did not expect visits from the agent unless he requests the agent to call to help him with some specific problem.

#### GRAPE JUICE BOOSTER

The Westfield (N. Y.) News has an interesting story in a recent issue of the meeting of William Jennings Bryan "the grape juice booster," and Dr. C. E. Welch, "the grape juice king." It happens that Mr. Bryan has for many years been on terms of friendship with Dr. Welch and both of them have been identified with the prohibition movement. As Mr. Bryan had an appointment in Cleveland he took the opportunity of traveling a little farther east and spending Sunday at Westfield as the guest of Dr. Welch, who, by the way, is quite well known to a number of Jacksonville people, as he has visited the city a number of times to attend sessions of the board of Trustees of the Woman's college. Mr. Bryan, according to the article mentioned, was greatly impressed with the extent of the acreage around Chautauque devoted to the growing of grapes. The growth of the grape juice industry in New York, Michigan and other parts of the country where grapes are grown has been a matter of general business industry. Grapes this year, like everything else, are much higher in price and factories this year are paying \$95 per ton for the grapes used.

### NAVAL RECRUITS MAY CHOOSE TRAINING STATIONS

Orders have just been received from the Navy Department that applicants for the Navy may have their choice of any of the following Training Stations: Great Lakes, Newport, Operating Base Hampton Roads, San Francisco, Cal.

Many ex-service men and young men who applied at the Navy Recruiting stations have expressed their desire of being sent to the Naval Training Stations in either the West or the East.

Branches now open in the Navy are: Aviation Mechanics, heavier than air and lighter than air; (for ex-service men and men with

gas engine experience); radio operators; electricians; firemen or firemen for oilers.

A bill is now up before Congress to increase the pay of the enlisted men of the navy. This bill is awaiting the return of the Secretary of the Navy from the Pacific coast. In all events the pay of the navy will be increased in the near future to a basis of pay received in civil life.

For further information write to the nearest Navy Recruiting Station: Champaign, Ill.; Danville, Ill.; Quincy, Ill.; Springfield, Ill.; Peoria, Ill.

## Morgan County Breeders Now at Work in Earnest

Adopt Co-operative Method to Increase Superiority of County's Hog Product—Claim Made That Greater Financial Benefit Accrues from Use of Pure Bred Sires—Aim to Make Morgan County Second to None—Well Known County Men Back of Movement.

**First Combination Hog Sale**  
Scheduled Wednesday, Oct. 29, at 1 p.m.  
Tony Franks' Barn, N. Main St.

That financial benefit will result in the livestock business from the use of pure bred sires has been so often and so clearly demonstrated that any further evidence tending to prove that fact is superfluous.

Many men who breed and feed hogs for the market carry this same principle further, and realize greater profits by using only pure bred dams as well as sires from which to breed for the market. The heritage of purebred hogs makes them easier to handle, quicker to grow, and cheaper to fatten into marketable condition than grades, and the cheaper and quicker a hog can be put into marketable shape, the more profit he returns the feeder.

An opportunity to purchase breeding stock, with this heritage of quick growth and easy feeding qualities, will be given in Jacksonville next Wednesday, Oct. 29, at the Tony Franks' barn, on North Main Street, at 1:00 p. m., when the Morgan County Breeders' Association will hold their first combination sale of pure bred hogs.

If you need a boar, if you need brood sows, if you have a herd of grade sows that you wish to improve, if you are thinking of starting in purebred hog business, if you want to make more money out of hogs, come out to this sale determined to take your needs back home with you.

Morgan County sends good hogs to the market, but it would help every feeder in the county as well as every bank and business house, if we could build up such a high standard among our hog men that when a load of our hogs reached the market, they are spotted as "Morgan County Hogs". When any locality gets that kind of reputation for any product, that locality's product outstrips competition and chooses rather than seeks its buyers.

We are not expecting any skyrocket prices in this sale. We are entering good serviceable individuals, and would like to have you come out and appraise them at what they are worth to you.

31 Durocs, 22 Polands and 2 Berkshires will be offered. Get a catalogue at the County Agent's office in the court house, or at the barn sale day.

ists and primary school teachers, held this year beginning June 24, was one of the best we have ever organized. It was attended by about fifty persons consisting of our entire force of men and women evangelists and the men and women teachers of our primary schools. There were twenty-one days of recitation, quite enough to keep both teachers and students busy. Bible courses were given and helpful meetings were held in the evenings. Courses were also given in music and in the new system of phonetic writing. Many think that in time this latter will revolutionize the whole educational system of China and make universal education a possibility. The present system has been approved by the Chinese Government and by high mission authorities and is at present being taught in the government normal schools and many mission schools.

A Short Cut to Reading. By the new method, instead of learning by heart, each of the thousands of distinct characters in the Chinese language, the student learns a sort of alphabet of thirty-nine letters which, by combination, represents all Chinese sounds. It has been claimed that an illiterate country woman having studied the system faithfully for ten or fifteen days is able to read the New Testament. This seems too optimistic a picture, but if the time were extended to twenty, or even thirty days, it would still mean the greatest boon yet found for general education in China and be of incalculable benefit to the church. For then the Bible would no longer be a sealed book to the large majority of our church members. All members of this summer's class were required to take the course in phonetics with the expectation that they will be able to teach others in the country this fall and winter.

Girl Graduates. Last spring nine girls from our own and three other mission stations received certificates of graduation from the higher primary school. All of these girls did good work the past year and will, we hope, continue their work through the middle school, but in case any of them may not be able to do so each will have in her primary school certificate a treasure which will set her apart from the heathen girls of her country village. The primary school commencement program was wholly in charge of the Chinese teachers and the girls themselves. The lower school teacher, a former middle school graduate, had charge of the music, and the men teachers helped the girls in the preparation of their essays.

Later in the week the Middle School commencement offered a more pretentious entertainment to their friends. The church was gaily decorated with flowers and flags and in spite of a busy harvest season a goodly number of people met to enjoy the performance of the girls—ever a most interesting spectacle in our city. Six of our brightest girls received diplomas which will, for a number of years to come, serve as ample mark of their ability to teach in the lower and higher primary schools of the country, mission and government.

The girls in their gaily colored summer garments were a pleasing sight, well groomed and neat. Neatness Under Difficulties. It is always a wonder to me when I see them looking so fresh to see how much can be done with how little. I wonder what American girl would enjoy having as her entire set of toilet articles a wash basin, holding about half a gallon, with sometimes soap and towel, but more often not, a tooth brush, not rubber, a wooden comb and perhaps a beaky hand mirror a few inches square. But the great majority of our girls have, no more, some less, and yet after a few months at school they usually look neat as compared with other girls. We have absolutely no bath-room accommodations in our school and how can we reasonably expect even a weekly bath in zero weather in unheated rooms with brick floors? It is also a marvel that their garments look so well when their washing must be done with alkali water—little or no soap—and in very small earthenware basins with no other aids save wooden wash boards. The chief need of our school it seems to me is a bath and wash room with money for fuel to heat it. To my mind this is the greatest need of our school at present for how can we teach our girls to be clean under these unfavorable conditions?

Very sincerely yours,  
C. M. EAMES,  
CARRIE JOHNSTON EAMES.

RESOLUTIONS OF RESPECT  
Adopted by the Concord M. E. Sunday School.

Whereas, Our Heavenly Father in His infinite wisdom has removed from us our faithful superintendent, Mr. Elmer Plank, whose life of integrity and uprightness was felt by all that in his death we lose an earnest fellow worker in the cause of Christ. Be it resolved, therefore, that this Sunday School make public recognition of their esteem and high regard for him.

And a copy be spread upon the record, also a copy be sent to Mrs. Plank and the family.

COMMITTEE.

MOTHERS AND FRIENDS BENEFIT

Thursday at Luttrell's theater afternoon and evening, the Mothers and Friends Patriotic Association is to have a benefit of half the tickets they sell and they are working industriously for a good attendance.

## Special Price on Regina Electric Cleaners This Week Only

The Model K Cleaner  
being made largely of  
aluminum, is light in  
weight and easily han-  
dled. The nozzle is  
twelve inches wide and  
blows off a very large  
volume of dirt with con-  
sequent efficient re-  
sults. It is so designed  
that it operates effec-  
tively in corners and  
close to baseboards and  
can also be used for  
cleaning stair carpets.  
The electric motor is  
high grade and con-  
sumes only about one  
cent's worth of current  
per hour. The extreme  
height of the cleaner  
above the floor is only  
7-8 inches, so that it  
can readily be used un-  
der furniture, beds, etc.

## STOCKS RECOVER FROM DECLINES

New York, Oct. 27.—Stocks to-  
day recorded general recovery  
from their severe reversal of last  
Saturday, the rebound being at-  
tributed to a more hopeful view  
of industrial conditions.

The determined attitude of the  
administration in connection with  
the demands of the miners and  
the support promised the federal  
government by the executives of  
the coal mining states met with  
the unqualified endorsement of  
conservative financial interests.  
Strike news from principal steel  
and iron centers was more reas-  
suring and favorable predictions  
of earnings to be made pub-  
lic after tomorrow's quarterly  
meeting of the United States steel  
directors. Unusual conditions  
prevailed in the money market,  
call loans opening at 5 per cent  
but mounting to 9 in the last  
hour, a 12 per cent rate ruling at  
the close. Time accommodations  
eased, many city and ninety day  
loans being negotiated at 6 1/4  
per cent.

Motors and oils led today's  
rally, equipments, steels and food  
shares contributing in variable de-  
gree.  
General motors eclipsed the en-  
tire list rising exactly 35 points  
to the new maximum of 361 1/2.  
Studebaker, Pierce Arrow,  
Stutz, Chandler, Mexican and  
Pan-American petroleum, Texas  
company, New York Airbrake,  
Baldwin Locomotive, Crucible  
Guilty States and Republic Steels  
comprehended the other strong  
issues with American Woolen.  
Sugars and such miscellaneous  
stocks as Columbia Graphophone  
and Remington Typewriter.

Sales amounted to 1,325,000  
shares.

Weakness of remittances to  
Italy and Germany, the former at  
a new point of discount featured  
the foreign exchange market.

The bond market including lib-  
erty and international issues was  
lower. Bonds (par value) aggre-  
gated \$13,750,000.

**CASTORIA**

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of Dr. J. C. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

**What is CASTORIA?**

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. Other News Notes.

Manchester, Oct. 27.—Work on the Manchester school building is now proceeding, after two months of delay. During that period school has been held in churches, council room and in two rooms of the school building. The non-arrival of the staircase was the cause of the delay. The work is now being overseen by John Patterson and will soon be completed and school will be all in one building before the cold weather comes.

**Fancy pears for canning \$1.50 per bushel. Order early. This is your last chance. W. S. Cannon Produce Co.**

**PAPER SCARCE  
AND SOARING**

Some Papers Will Have to Suspend on Account of Insufficient Supply.

The situation in the market on white paper—the kind newspapers use—is becoming desperate. Since before the war, when white paper was to be had in abundance at \$38 a ton, there has been a steady advance in price until it has now reached \$120 and \$130 a ton at the mills.

Not only that, but it is difficult to obtain even at that price, so great has become the consumption and so reduced the output of the mills. In the eastern paper making district a few contracts for 1920 are being made at \$120 a ton, but the bulk of the mills refuse to enter into contracts because of the unstable conditions. The largest eastern paper makers recently notified the important papers in Washington they could not supply them for 1920 because they had to reduce their output. The only hope of relief in sight has been the Pacific coast mills, but the excessive freight rate militates against paper from that section.

A recent letter from a white paper expert says:

"As far as I can forecast the situation, there seems to be no relief in sight. Eastern mills are bidding against each other, and price seems to be no object if they can get a supply. I am fearful the result will be that some of the small publications will have to suspend."

**THE OBSERVATORY**

Mexico has been warned that if she didn't keep her bandits in hand she would get into trouble with us, and sure enough another note is on its way to her.

The way Illinois courts the past few weeks have been severing the bonds of matrimony is enough to plumb disgust. Cupid and send him to bed with nervous prostration under care of five doctors. But it won't. The optimistic little cuss will work up a big bargain sale of salvaged goods for the holiday season.

The editor of the Munich Reich flag has been shot according to cable dispatches. Nowadays a real radical isn't safe anywhere except in America.

Nine attorneys, eight of whom were volunteers, won a quick and unanimous verdict of acquittal for a 29-year-old widow on trial for forgery in Joplin, Mo. The widow was very pretty and held an 18-month-old baby in her lap, but still the lawyers probably deserve some credit for the verdict.

A group of serious minded and forward thinking high school girls have organized a suffrage club. Their first important step was to arrange for a series of lectures, beginning Halloween night.

It was apparent from the sugar shortage that some abnormal conditions existed, altho nobody seemed to know what it was. It is now revealed by the Department of Commerce to be a greater production than the country has known in years.

Maintaining roads in which motor cars sink to their hubs is how some towns show their belief in deep plowing.

This will be the first Thanksgiving in four years when we were quite sure we were right when we gave thanks.

The wife of an Atchison plumber is in an uncomfortable predicament. She has a mania for imitating movie actresses, dressing like Mary Pickford when Pickford films are shown and like Bessie Barriscale when Bessie is on the screen. And now Annette Kellerman has been billed for Atchison.

Now if the British government only had the foresight to adopt the American system a little thing like a lack of confidence in Parliament wouldn't disturb it in the least.

There seems to be sound logic in the belief that many of the state who are joining pig clubs will grow up to be feeders. They'll have something to feed on, too.

The country papers generally are "fanned" nowadays that beginning this week they may "fan" or "longer," out most of the farmers know better.

Some rain.
